E. SESSION SUMMARY:

Target personality is described as "Ahmad", an Arab-military leader who has recently been promoted to a high military rank of leadership.

There appears to be no salient activity taking place until 9 April 1992 or thereafter.

"Ahmad" is involved in strategic war planning for an activity, possibly an attack to occur in southern Lebanon. However, his attack will be neutralized. "Ahmad's" forces (military) forces are currently involved in a military buildup occurring within a geographically circular area.

"Ahmad" is a military person who believes in terrorism. He hopes to force his way "on (Israeli) settlement land." Israel, on the other hand, will take progressively stronger unilateral action to protect its freedom and guard its territorial rights.

Indications are that "Ahmad" is not currently in the Middle East. He appears to be in a warm and comfortable climate area such as South (America).

Other Issues:

- Arabic countries are now uniting into a stronger (International) political group.
- North African countries (the Maghreb) becomes active.
- Stress and ~~tensions continue to rise in Panama.~~ Panamanian leadership is apparently too weak and incapable to cope internally with the problems.
- Terrorism will soon be on the rise with a multiplicity of terrorist factions on the rise.
- Look for the introduction of a new math system.
